1. Qualitative Information on Quarterly Financial Results

(1) Explanation of Operating Results

During the three months ended June 30, 2023, the Japanese economy showed signs of moderate recovery with the normalization of economic activities following the easing of restrictions on activities to prevent the spread of COVID-19. On the other hand, the outlook remained uncertain mainly due to the impact of global monetary tightening and rising prices.

In the fire protection industry, although private capital investment has been on a recovery trend and supply constraints on parts have been on an improving trend, it is necessary to keep paying close attention mainly to the effects of rising raw material prices.

Under these circumstances, the Group has formulated the vision for fiscal 2028 and the measures to realize it as “Medium- to Long-Term Vision 2028: Shaping the Customers’ Expectations.” Starting in fiscal 2022, it has been undertaking a variety of initiatives to transform itself into a company that can create higher added value.

As a result of working on active business activities as the second year of this medium- to long-term vision, orders received in the three months ended June 30, 2023 totaled ¥36,710 million (up 6.7% year-on-year) and net sales were ¥21,666 million (up 6.7% year-on-year).

In terms of profits, mainly due to an increase in net sales amid a solid demand environment, operating loss was ¥135 million (compared with operating loss of ¥549 million in the same period of the previous fiscal year), ordinary income was ¥31 million (compared with ordinary loss of ¥415 million in the same period of the previous fiscal year), and quarterly net loss attributable to owners of parent was ¥2 million (compared with quarterly net loss attributable to owners of parent of ¥318 million in the same period of the previous fiscal year).

By business segment, net sales and operating income in the Fire Alarm Systems segment were ¥7,661 million (up 3.8% year-on-year) and ¥458 million (up 58.6% year-on-year), respectively. Net sales and operating income in the Fire Extinguishing Systems segment were ¥7,502 million (up 5.5% year-on-year) and ¥669 million (up 23.1% year-on-year), respectively. Net sales and operating income in the Maintenance Services segment were ¥5,378 million (up 10.4% year-on-year) and ¥696 million (up 49.4% year-on-year), respectively. Net sales and operating loss in the Others segment were ¥1,123 million (up 20.2% year-on-year) and ¥13 million (compared with operating loss of ¥13 million in the same period of the previous fiscal year), respectively.

(2) Explanation of Financial Position

Total assets at the end of the first quarter of the fiscal year under review were ¥144,545 million, down ¥7,056 million from the end of the previous fiscal year. This was mainly due to a decrease of ¥13,972 million in notes and accounts receivable–trade, and contract assets, despite an increase of ¥4,786 million in cash and deposits, an increase of ¥853 million in raw materials and supplies, and an increase of ¥805 million in merchandise and finished goods.

Liabilities fell ¥6,138 million from the end of the previous fiscal year to ¥28,827 million. This was mainly due to a decrease of ¥4,356 million in electronically recorded obligations–operating, a decrease of ¥1,152 million in notes and accounts payable–trade, and a decrease of ¥943 million in income taxes payable.

Net assets were down ¥917 million from the end of the previous fiscal year to ¥115,718 million, mainly due to a decrease in retained earnings.

(3) Explanation of Consolidated Financial Results Forecast and Other Forward-Looking Information

Regarding the financial results forecast for the six months ending September 30, 2023, and the full year, there are no changes to the forecast announced on May 10, 2023.

At the Group, our sales tend to be concentrated in the latter half of the fiscal year, particularly in the fourth quarter, because the construction industry has a significant impact on our sales.
